## CLIENT CHALLENGE

More and more banks and large corporations offer accounting as part of their services. Seeing the fast spreading trend, Plichta – a small accounting office, saw the need to strengthen their market position. The company lacked the time and reliable tools to deal with the increasing amount of customers and documentation, as well as handle customer communication. To stay competitive, Plichta decided to provide services on a larger scale, and was looking for a solution to support such change.

## SOLUTION

Working in close partnership with Plichta, we managed to develop an intranet system, designed to answer all the most burning issues and company needs. Plichta Accounting Manager introduced intelligent decreasing to unburden daily functioning of the office, and help avoid potential errors. Additionally, the online extension enabled Clients to issue invoices and send files directly to the office.

## RESULTS

After implementing Inwedo's solution, Plichta has been able to work more efficiently and maintain high quality of their services. Improved communication helped gain trust and nearly double the number of key business Clients. Smart systems for scanning and handling documentation helped save employee time. The Customers benefited most from the online system of file processing, which made everyday contact with the office much more convenient. Inwedo's support for the Plichta Office continues, as the created system provides a great framework for the Company's future growth and development.
